FRESHMEN PLAY HERE TOMORROW

Undeclared, Un-scored-on College
Fresh Meet Fresh-Hardeman
at Three O'clock.

Murray Fresh's undefeated, un-scored upon, football team is rapidly working into shape to meet Austin Peay Normal's undefeated team Friday, October 23, on Murray's field.

Austin Peay's team with a line average of 155 pounds and a backfield average of 151 pounds has not been scored upon in the two games played. They have held the strong Vanderbilt "B" team 0-0, and defeated Bethel of Tennessee 14-0.

Murray fresh has won all three games and are now fighting for a perfect record for the season. The freshmen have been scrimmaging the Varsity for the past two weeks but have been kept in shape for Friday's game.

The loss of Hager, backfield man, will be felt, but Coaches Miller and Stewart have a number of good backs from which to pick a substitute.

Just what may be the result of this game can not be forecast.

"KENTUCKY'S MOST PROGRESSIVE
NEWSPAPER"

at present, as both teams are
powerful organizations. Fresh-
man followers believe that it will
be another Fresh victory if the
backfield reaches the form shown
in the Western game two weeks
ago.

The squad has undergone a
few minor changes in lineup and
new tactics of play have been
introduced by the Coaches. The
line will still contain most of its
weight with Woodall probably
getting to start. While in the
backfield there are no sure posi-
tions.

At the first meeting of these
two teams Friday the crowd will
be entertained by the "Best Band
in the S. I. A. A."

SUGGESTIONS FOR THE TABLE OF THRIFTY HOUSEWIVES

MURRAY TIGERS TO MEET BUTLER HIGH

Princeton to Present Strong Eleven on Local Field Friday at 1.30 p. m.

After being handed a stinging defeat by the Blue Tornado of Paducah, by a score of 50-9, the Tigers will be out for revenge tomorrow afternoon at 1.30 when they will clash with the strong eleven of Butler high school, Princeton.

Coach Holland has put his squad through hard work-outs this week and has held scrimmages with his "B" team almost daily. Both teams are showing great improvement and the past regular position-holders are having to show added punch to hold their places. Lack of weight only is keeping some coming stars out of the regular lineup and Coach Holland is giving much attention to these future players.

Roberts, flashy tackle, is still out on account of injuries and

looks as if the season will end before he will be able to return to the squad.

The local fans are expecting a good brand of ball by V. Wells, half back. He is a large, shifty man and should hit the line for numerous gains. His educated toe will perhaps play an important role in the tilt tomorrow.

Captain Dan Banks, son of Jim Banks, North 4th street, turns in a report that the team is in excellent condition for the fray and that he is expecting a certain victory.

The game will start promptly at 1.30 and will give local fans ample time to see the Austin Peay-Fresh game called at 3:00 on the College field.

Fain & Bell to Open New Meat Market

The Fain-Bell grocery company are installing a modern and sanitary meat market here this week. The market will be complete and adequate for the best of meat services. They have employed D. P. Garrison, of Metropolis, Ill., as meat cutter. Mr. Garrison has seventeen years of experience in the meat business. He is formerly of Murray and Calloway county.

The owners have stated that they will handle only the choicest of meats stressing quality at all times. They have installed a large cooler and a twelve foot display counter to assure the public of sanitary foods.

FIRST FROST FALLS HERE SUNDAY NIGHT

The first frost visited Calloway county last Sunday night, open places being touched by winter's icy hand for the first time this fall.

The temperature fell below freezing both Sunday and Monday nights, going to 30. The minimum Tuesday night was 32. It began to warm up somewhat Wednesday after several cool days. High for the week was 82 Wednesday.

Farmington Postmaster Brings Fine Potatoes

Mr. Usher, postmaster at Farmington, brought some fine sweet potatoes to the Murray Wholesale Grocery Company this week with the request that they be sent to the Ledger & Times for exhibition.

Three of the potatoes weigh nine pounds and four ounces. The largest, a well shaped yam, weighs more than four pounds.

ORGANIZATION CHAIRMAN ISSUES AN APPEAL TO TOBACCO GROWERS

Your distress cries of last year's tobacco prices have been heard in Washington, Federal and State men have been sent here to learn the situation as it is. They reported their findings to the Federal Farm Board. An organization, contract, has been prepared, and approved by the Farm Board and your own representative tobacco growers. The contracts have been printed and in many localities been explained to the growers. Some are signing the contract. Some are not. The first time limit for sign up was October 15th. Not a sufficient amount of tobacco being pledged by that date to operate, the time has been extended to November 15th to finish the pledging. It is a farmers organization and if it functions the farmers must pledge their tobacco within due time or go back to last years sales conditions.

Listen farmers, if an association is formed it will be the growers association. No one is paid to solicit you to sign the contract. Several men have been volunteering their services but can not continue to do it unless the farmers themselves are interested sufficiently in the move to sign the contract for co-operative marketing. There are millions of dollars provided by the National Government for the relief of farmers providing they organize. There is not one dollar provided anywhere for this tobacco situation unless the farmers organize as stated above. Will you organize? Will you sign the pledge? The Federal Farm Board is willing and amply able to make reasonable advances on this fine crop of tobacco to the farmers cooperative but not to individual farmers.

Look at the markets today. Georgia market just closed almost \$4.00 under last years prices. The Carolinas' markets started so low just a few days ago that some of the farmers are reported to be hauling their tobacco back home and using it for fertilizer.

The Burley situation in Kentucky is no better. Look at the opening prices last week, so low that more than 800 growers gathered in Lexington on Saturday the 17th registering a protest against the prices offered. They go on record there in that meeting as not only favoring an Association to take care of this distressing condition, but many of them favored cutting out the 1932 crop entirely. They realize that only ruin may be expected if they fail to organize.

Should they, or we, rush this big crop of tobacco on the market as we are trying to do, if we do not organize, we can not hope for even expenses of producing this crop of tobacco. On the other hand if we form a pool here for handling this crop of tobacco as I think they will for handling the Burley crop we can at once avert the stampede that will inevitably start when the sales season opens if we were unorganized.

The time is short; the emergency is great and the workers too few to cover the territory in the limited time. Let every grower do his part by first pledging his own tobacco and then carrying the pledge to his neighbor.

The Chairman of the Western District earnestly solicits the immediate help of all growers in making this sign up, complete before November 15. It looks as though we must prepare to market this tobacco in an orderly way or suffer the consequences which are to day apparent to all. If we remain unorganized and our tobacco is rushed upon the local markets as soon as they open by thousands of loads the farmer has himself to blame when he is forced to take prices so small portion of what his tobacco is worth, that thing is likely to happen.

Get in touch with your nearest organization worker who can furnish you a contract, sign it, and thereby stamp your approval of the organization. If the man on the outside can sell at his barn door, the man on the inside may sell there too. If the man on the outside is offered a reasonable price on the Loose Leaf Floor the man in the Association may also sell on the Loose Leaf Floor. If the man in the Association is not offered a fair price at his barn door nor on the Loose Leaf Floor, then he takes a reasonable advance, leaving his tobacco in the seasonal pool, to be sold by experts who know world tobacco conditions, and the best markets for the various types of tobacco. If the man outside the association is not offered a reasonable price for his tobacco, what can he do with it? Now that is the question that is confronting the tobacco growers in general if they fail to organize.

Outside of an organization, there is no source of money supply for the farmers of this crop except the buying interest who

will as before dictate the prices they pay you. Did that not happen last year? Will it not happen again?

The signing of pledges is going on through out the major part of the Dark Fired District, but not as fast as we think it should go to guarantee an easy victory.

It is the judgement of the writer, that if every grower knew the tobacco situation as it is and where practically all the profit of this great crop goes there would be a 90 per cent sign up of this fine crop of tobacco to the Association before the close of this week.

Yours for cooperative marketing,
W. H. FINNEY
Org. Comm. Western Dark Fired District
